Mega Mulch Day

12 members of the SJA Landscape Team along with 24 scouts and parents from Boy Scout Troop 306 spent Saturday morning hauling, dumping, and spreading 45 yards of regrads mulch which was donated by the York County Composting facility (value \$585.00). There were no hauling fees-Jim Quail hauled the mulch. The landscaped beds that are in the moat area of the back parking lot were mulched. This area had not been mulched in three years. Volunteers also collected loose logs and stacked and tarped the wood, weeded, raked up yard debris, pruned and shaped plants, freshened the piazza, and freshened the landscape at Father Mike's house and the Mary Fisher House.

Landscape Bed with piles of mulch to be spread. Completed landscape bed

Trees with mulch piles throughout the beds. Volunteers completing the raking of the mulch.

Completed mulching of the entire area.

Thanks to the generous donation of food and drink from the Gloucester Chick-Fil-A the landscape team, the scouts and parents of the scouts ate lunch together behind the Mary Fisher House on the newly installed patio and celebrated a year of excellent landscaping work at St. Joan of Arc.

The team will soon be collecting leaves throughout the landscape this fall with the leaf vacuum and the blower.

Respectfully Submitted,  
Jim Orband  
Chair, Landscape Team
